Description

Goal:

To connect the 3 possible course type options to the parent Schedue Builder

So that:

Parents are able to select a course type for their students when they are creating the student's schedule

Details:

Under the "**Course Type" column on the Schedule Builder, parents should be able to select between all available course types (if applicable/enabled)**

There are three "**course type" possibilities** (see below):

📌 **Course Type Dropdown:** https://www.figma.com/file/8LI36Xr5VdIvRw3fekAC5d/MTH---Product-Review-(Erin)?node-id=54810%3A31999

Custom-built

My Tech High Direct

3rd Party Provider

> **Please Note: Although these are the three possible options, whether they show on the parent end or not all depends on what the admin has enabled/set up on their side**

Course Type Details

3rd Party Provider Option:

A 3rd Party Provider will consist of resources/social experiences in the students' local communities

Examples of these courses could be **group art classes, dance classes, driver's education, etc.**

- If the 3rd Party Provider option was **enabled** for the subject that was selected in the previous column, **the parent will see it in the dropdown and be able to select it**
- There will be an **associated pop-up to enter details for the 3rd Party Provider** when the parent selects this[(see related pop-up ticket)|https://mytechhigh.atlassian.net/browse/INFOCTR2-1010]

Custom-built Option:

By selecting this option, parents will be able to **customize a course for their student**

- If the Custom-built option was **enabled** for the subject that was selected in the previous column, **the parent will see it in the dropdown and be able to select it**
- There will be an **associated pop-up to enter details for the Custom-built course** when the parent selects this[(see related pop-up ticket)|https://mytechhigh.atlassian.net/browse/INFOCTR2-1038]

> **Both the Custom-built and 3rd Party Providers** will need to have **been enabled on the admin end in the Schedule builder settings and for the subject/title** that the parent had selected in the previous column in order to show in the dropdown. Please see the connection reference below:

📌 **Schedule Builder Settings:** https://www.figma.com/file/8LI36Xr5VdIvRw3fekAC5d/MTH---Product-Review-(Erin)?node-id=57693%3A35496

When these options are **enabled in the Schedule Builder Settings, admins will be able to select them when they are setting up a specific subject/title** (see below)

Parent/Admin Course Type Connection - (Custom-built and 3rd Party Provider)

📌 **Reference 1:** https://www.figma.com/file/8LI36Xr5VdIvRw3fekAC5d/MTH---Product-Review-(Erin)?node-id=57316%3A33444

📌 **Reference 2:** https://www.figma.com/file/8LI36Xr5VdIvRw3fekAC5d/MTH---Product-Review-(Erin)?node-id=54619%3A31682

📌 **Reference 3:** https://www.figma.com/file/8LI36Xr5VdIvRw3fekAC5d/MTH---Product-Review-(Erin)?node-id=42841%3A26756

If 3rd Party Provider and Custom-built have been enabled for the subject/title by admins (as seen in reference 2 above, they **should show on the "Course Type" dropdown**

My Tech High Direct Option:

The My Tech High Direct option will be **directly connected to the providers/courses inputted on the admin end**

> The **"My Tech High Direct"** option will only show in the dropdown **if the provider/course has been mapped to the subject**
>
> See related ticket here: https://mytechhigh.atlassian.net/browse/INFOCTR2-811

Admin Story:

- **Admin enables Custom-built and 3rd Party Provider in the Subjects/Title pop up**
- **Admin sets up providers/courses for My Tech High Direct on the Providers page**

Parent Story (Custom-built and 3rd Party Provider):

> For the parent story of selecting a My Tech High Direct course, please see the "Parent Story - Example" in the related ticket:
> https://mytechhigh.atlassian.net/browse/INFOCTR2-811

- Parent logs into InfoCenter
- Parent clicks on the **"Submit Now"** schedule notification
  - After navigating through/completing all enabled/required sections, the parent **lands on the Schedule Builder page**
    - Parent selects a period/category
    - Parent selects a subject/title
    - Parent sees the select dropdown menu on the **"Course Type"**
    - Parent clicks on the dropdown
    - Parent sees the **3rd Party Provider, Custom-built, and My Tech High Direct options**[**(if applicable)**|https://mytechhigh.atlassian.net/browse/INFOCTR2-811]

Done Criteria:

1. If the 3rd Party Provider option was **enabled on the admin end** for the subject that was selected in the previous column, **the parent will see it in the dropdown and be able to select it**
2. If the Custom-built option was **enabled on the admin end** for the subject that was selected in the previous column, **the parent will see it in the dropdown and be able to select it**
3. If there is **only one "Course Type" option available, then it should be pre-populated in the dropdown**

4. The **"My Tech High Direct"** option will only show in the dropdown **if the provider/course has been mapped to the subject**[**(for reference)**|https://mytechhigh.atlassian.net/browse/INFOCTR2-811]

Hi Erin Sublette
This one should be all set! Sending over!
